

# SOLID FOLD

FOLDING HARD LID TONNEAU

## NO TOOLS REQUIRED!

The new Solid Fold can be installed or removed in seconds! Fastest installation of any hard tonneau in the industry!

The tonneau is completely self-contained. No assembly, no tools, no spare parts...no headache! Revolutionary built-in features provide a secure no-nonsense installation.

## EXTANGENGINEERED™ For Strength

The Solid Fold tonneau cover is **ultra strong, yet lightweight**. Aircraft grade aluminum alloy frame and honeycomb core construction. Entire tonneau weighs approximately 50 lbs., yet is rugged and strong enough to support an average sized 4-wheeler. *(We've done it, but don't recommend trying this at home)*. UPS shippable.

**Unique hinge design** integrates engineered channels to keep water out. Hinges are consistent with the framework, made of the same durable aluminum alloy.

Maximum Strength Warranty - The Solid Fold carries a three year warranty. Famous

## Tri-Fold Design

**Easy to use clamping system** provides the ultimate in truck bed versatility. Extang's extremely strong glass-filled nylon constructed SafetyKlamps™ offer both a rapid-secure & rapid-release system, without tools.

**SpeedKlamps provide instant access to the truck bed.** Tail section SpeedKlamps operate with spring-action technology for instant fasten and release. All clamps conveniently stow away within the rail when not in use. *(See image in far left column)*.

The Solid Fold can be folded temporarily out of the way. To allow ease of loading or quick convenient access to cargo.

Fold completely at the cab and secure with built in straps OR completely remove entire tonneau in just seconds. Cab section SafetyKlamps secure by simply hand tightening the threaded clamp with built-in heavy-duty handle.

## Classic Extang Look

Sporty black textured poly-tex paint finish. UV protected against harmful rays and fading. Great for all climates.

Tonneau covers keep cargo protected and out of sight. A tailgate lock (either OE or aftermarket) can provide added cargo security.

The Solid Fold provides easy and convenient use with great styling and cargo security.

Extang engineering, quality craftsmanship  
and excellent customer service.
